UX Design Internship

OGO Sense is looking for a User Experience Design interns who have desire to create intuitive responsive websites and mobile apps. Interns will be working with our professional web designers on:

- Creating design recommendations for smaller projects with focus on UX
- Implementing approved designs using latest front-end development practices and technologies (HTML5, CSS3, Joomla, Drupal, Android).

Apply for the internship if:

- You are a future graduate or graduate without professional experience.
- You are experienced web designer looking to improve your knowledge.
- You would like to learn about web and mobile user experience design.
- You would like to receive bonuses for successfully completed tasks.
- You would like to gain professional work experience.

Qualifications:

- Excellent English communication (speaking, reading, writing).
- Ability to attend evening sessions (6-9PM).
- Creativity and self-initiative.
- Fast learner.
- Your own laptop.

Apply now, space is limited!
